

The Chicagoland Construction Safety Council presents

NFPA 70 E Standard for Electrical Safety in the Workplace

4 Hour Seminar on 2012 changes

Monday, February 6, 2012

7:30am —11:30am

Price includes hard copy of NFPA 70E Standard (2012 Edition) – \$52.00 value!

2012 is here and so are new safety standards for electrical workers. You need to know what these changes are and how they may affect your business. Attend this 4-hour seminar and gain the knowledge necessary to update your electrical safety program. Learn from industry experts, avoid costly mistakes and do the right thing for your employees.

Lives depend on you! Protect your personnel from electrical hazards and meet the highest standard for electrical safety with the 2012 edition of NFPA 70E®.

Workplace safety in the United States is evolving due to better awareness and implementation of *NFPA 70E: Standard for Electrical Safety in the Workplace®*. Yet hundreds of deaths and thousands of disabling injuries still occur each year due to shock, electrocution, arc flash, and arc blast -- and most could be prevented through *NFPA 70E* compliance. The 2012 *NFPA 70E* responds to the challenges ensure an electrically safe working area and comply with OSHA 1910 Subpart S and OSHA 1926 Subpart K.

Get new ways to calculate risks and mitigate hazards.

Originally developed at OSHA's request, *NFPA 70E* responds to new information about the effects of arc flash, arc blast, and direct current (dc) hazards, and recent developments in electrical design and Personal Protective Equipment (PPE).

Who should attend?

Any individual (sales, estimators, project managers, etc.) whose work will require them to be on a construction worksite.

Registration is required • Fill out this form and fax it to 708-544-2371 • Contributor price is \$195 per person / non-contributor is \$295 per person

Course Location

4100 Madison Street
Hillside, IL 60162
