EXPERIENCE

CONCRETE STRUCTURES OF THE MIDWEST, INC.

FIELD SAFETY MANAGER, *August 2009 – Present*

Solely responsible for short term shift project at the American Airlines Pavement Reconstruction Project at O'Hare International Airport. Duties include but not limited to: Enforcement of company safety policies and procedures, accident/incident investigation, field safety meetings, tool box talks, equipment inspections, over-all site safety for GC and sub-contractors.

CECO CONCRETE CONSTRUCTION

LABORER / FIELD SAFETY REPRESENTATIVE, *March 2004 – October 2007*

Expanded on my field laborer training by working heavy concrete construction stripping crew, decking, scaffold building, concrete pours, pre and post pour measurements. Other responsibilities included daily and weekly site safety inspections, equipment inspections, inspection of scaffolds, perimeter protection, netting, fall protection and slab openings. Maintained documentation of all such inspections. On-site First Aid/CPR representative.

CONCRETE STRUCTURES OF THE MIDWEST, INC.

LABORER / FIELD SAFETY REPRESENTATIVE, *August 2002 – December 2003*

Began full-time hands on laborer field training in heavy concrete construction. Also began hands-on training in various safety duties which involved orientation of OSHA Guidelines and implementation of such in a construction environment. Responsibilities included daily jobsite inspections, attended organized walk-throughs, hazard recognition, tool box talks, attended site-specific field safety training and orientation meetings.

OPAL ESSENCE

BUSINESS OWNER, *January 2001 – present*

Art and creativity is my passion and hobby and is something I use to fill in my "downtime".
